

Navigating Course Spaces

After choosing a course space in which to work (see **Logging in to Angel**), you are brought to the home page for that course.

The screenshot shows the course page for 'Principles of Developmental Psychology' in the Angel LMS. The page has a green header with the course title and 'Social Sciences' in a lighter green font. In the top right corner, there are navigation icons, the text 'cdpe design', and 'PSYCH 361'. The main content area is white and contains the following text:

Start Here: If this is your first online delivered course, you need to perform two activities before you begin your lessons.

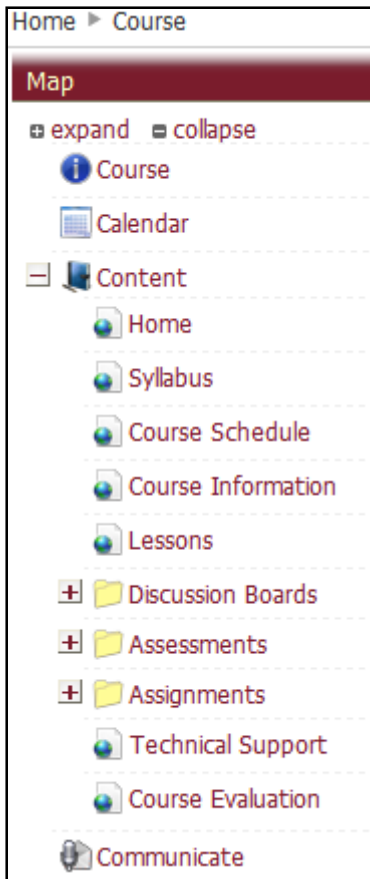

1. First, visit the technical support page to make sure your computer meets the minimum technical requirements. (In the Map area on the left of your screen, click the plus sign (+), then click Technical Support.)
2. Second, please take a few minutes to go through the [Angel Tutorial](#).

Below the text is a photograph of two young children, a girl and a boy, sitting at a table. They are looking at a colorful educational mat that features various illustrations and a ruler. A basket of colorful alphabet blocks is on the table in front of them.

Let's start by exploring the course space in detail.

Below is an example of the **Map** menu – found to the left of the home page – for our sample course space. The items included in this menu may change slightly depending on the course.

Note: Items with plus or minus signs may be expanded (plus sign) or collapsed (minus sign) to reveal more or less content by selecting the respective sign. You will need to select the plus sign next to **Content** so that your **Map** will look like the one below.

Now, we'll just take each item from the top.

Course

This link provides interesting statistics for the course.

Calendar

This link provides a calendar for your use. You may choose to have entries visible to students, such as assignment due dates.

Content

Select the plus sign next to the **Content** folder to expand its menu. The **Content** folder contains links to the course home page, syllabus, lessons, and other important course documents.

Home

This link brings you back to the home page of the course space.

Syllabus

This is where the course syllabus is housed and viewed by anyone taking the course.

Course Schedule

Once selected, the course schedule for the semester is displayed.

Course Information

This area includes links to other resources that may be helpful to students (e.g., eTutoring, DDLS, or Web sites that may be pertinent to the course).

Note: Your course may not have this page.

Lessons

This is where course lessons are viewed.

Discussion Board

This part of Angel has many options for posting and contributing to course discussions.

Assessments

Here is a listing of the various assessments available to students taking the course (those that have been made available for their view; exams and quizzes can be hidden from view until a date established by the instructor).

Selecting the link takes the student to the quiz or exam where they are asked to select **Begin Now** to start the assessment.

Assignments

This function allows students to submit their assignments via the course space. Selecting the link to an Assignment opens the drop box where students can attach their file as well as add a message to the instructor. To cancel the submission the student can select any link in the **Map** area.

To retrieve submitted assignments instructors select **Assignments** in the **Map** area.

Technical Support

This is a resource students and instructors can utilize when experiencing trouble with the Angel environment. A notification is sent to technical support for troubleshooting and follow-up.

Course Evaluation

This area contains the link and any necessary information for your course evaluation.

Communicate

Communicate is where you will find your course communication tools (e.g., e-mail, chat, and teams). You will have access to your discussion board here as well as in the **Content** folder.

Reports

The **Report** page provides access to several reports that help an instructor track student progress in the course.

Manage

This page houses your course management tools, including the **Gradebook**.
