

Welcome to the Global Campus @ Washington State University

[MUSIC PLAYING]

SPEAKER: In 1890, Washington State University was given a mission, reach beyond campus boundaries. It's been more than a century of success.

Extension offices in every Washington State county, regional campuses across the state. But it's a new world now with new tools that let people connect across continents.

We are creating the digital campus, the campus of a future.

The Global Campus.
